

Dear VirTex Customer,

VirTex Enterprises is concerned with the potential that the mining and trade of conflict minerals from the Democratic Republic of the Congo (DRC) and the adjoining countries (Conflict Region) can directly or indirectly support armed groups. VirTex does not purchase these metals directly from smelters or mines and must rely on our suppliers to provide this information. VirTex is committed to ensuring products that we purchase are to be conflict free. VirTex will work closely with our suppliers to verify to the extent possible that the materials and products entering our supply chain that contain Tantalum, Tungsten, Tin, and Gold were obtained from conflict free sources. VirTex will maintain compliance with section 1502 of the Dodd-Frank Act.

Our objective is to have a conflict-free supply chain. If VirTex becomes aware of a supplier whose supply chain includes metals from a conflict source, VirTex will take the appropriate actions to remedy the situation in a timely manner, including reassessment of supplier relationships, to achieve that objective. VirTex expects our supply chain partners to take similar measures with their suppliers to ensure alignment throughout the supply chain.
